

Flashing Siren "System Gas" FS230M - FS012M - FS024M

The new Flashing Siren "**FS Series**" is born from the elegance and prestige that has always distinguished **BEINAT S.r.I**.

The siren is built in three models: FS230M - FS012M - FS024M. This device has the prerogative to signal, through the audio group and of the flashing light incorporated, the presence of danger.

The sirens can have various supply:

**FS230M**; 230/240 VAC 50/60 Hz AC Supply **FS012M**; 12 VDC Supply **FS024M**; 24 VDC Supply

This device has 2 microswitch through which the user can select:
1) a flashing only device. With this feature the audio part is deactivated.
2) a timer to turn off the audio part in order to avoid noise pollution. While the audio is off the light flash will continue until the alarm is active.

The external case is in ABS plastic with a IP54 protection.

Important: Assembly / maintenance of the appliance must be carried out by qualified personnel and in accordance with applicable laws and regulations. The manufacturer assumes no responsibility for the use of products that have to comply with particular environmental and / or installation standards.

#### Important note

Before connecting the equipment, it is recommended that you read the instruction manual carefully and keep it for future reference. It is also recommended to perform the electrical connections correctly as per enclosed drawings, observing the instructions and the Standards. **N.B. Refer to the documentation in all cases where the symbol is on the side** 

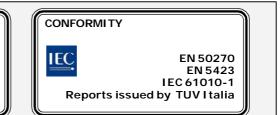

Installation and

user guide

INSTALL IN SAFE

AREA, NO ATEX

ATTENTION!! Read the following instructions carefully before installing and keep this booklet in a safe place for future reference.

In order to connect to the mains power, carefully follow the instructions and ensure the voltage is correct.

CHECK the integrity of the siren after having removed it from the box.

Check that the data written on the box correspond to siren voltage used.

When doing the electrical connections, follow the drawing closely. Any use of the siren for purposes other than the intended one is considered improper, and as a result of which BEINAT S.r.I. therefore disclaims any responsibility for possible

damages caused to people, animals or objects.

Never clean the device with chemical products. If necessary, after having disconnected the power, wash with a moist cloth.

Always entrust installation and maintenance of the devices to qualified and/or authorised technicians who, in cases of failure, can guarantee use of original spare parts. Do not allow it to become wet.

The device can be seriously damaged as it is not waterproof either when immersed in water or exposed to high levels of humidity.

## Do not drop it.

Heavy knocks or falls during transportation or installation can damage the appliance.

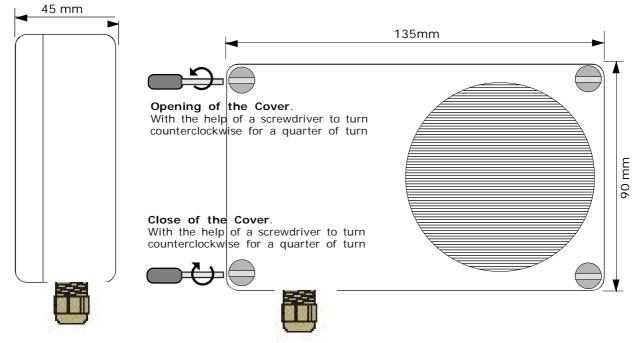

Avoid abrupt temperature fluctuations.

Sudden temperature variations can cause condensation and the device could work poorly. Cleaning

Never clean the device with chemical products. If necessary, wash with a moist cloth.
